

Scratch resistant display of hardened glass for STYLISTIC® 6000 Serie

With the exclusive glass-panel of hardened glass the latest technologies in manufacturing of technical glasses are now available for the TabletPC of Fujitsu. The outdoor readability of the display will be improved dramatically and the robustness of the devices will increase.

- **User optimized**
Better readability of the displays due to less reflections and without display films, especially outdoors
- **Robust and persistent**
The scratch resistant glass was designed and developed for use in extreme environment
- **Warranty**
The Fujitsu warranty will be untouched. We offer two years for the glass.
- **Low weight**
New technologies in manufacturing of glass make it possible to use a glass of low weight. The STYLISTIC will not be heavier.
- **At any time and flexible**
The display panels of the STYLISTIC 6000 series are changeable with an active digitizer.
